SUMMARY

Senior Frontend Developer / Tech Lead with 9+ years of experience building scalable web applications using Angular, TypeScript, and ASP.NET Core. Strong expertise in developing high-performance enterprise applications, designing reusable UI architectures with Angular Material UI, and leading frontend development teams. Experienced across Angular (9–18), ASP.NET Core / .NET Core, Node.js, REST APIs, and modern UI frameworks, with working exposure to Azure-hosted deployments. Proven ability to define technical specifications, collaborate across teams, mentor developers, and deliver high-quality software in Agile/Scrum environments.

SKILLS

Angular • Angular Material UI • TypeScript • JavaScript • ASP.NET Core • .NET Core • REST APIs • HTML5 • CSS3 • SCSS • MongoDB • Express • Node.js • React.js • NestJS • SQL Server • PostgreSQL • Firebase • Azure (working exposure) • Git • Jira • Bootstrap • Tailwind CSS • Confluence • Agile / Scrum

EXPERIENCE

Senior Software Engineer — *Thomsun Infocare LLP, Kochi, Kerala* 02/2020 – Current

- Led end-to-end frontend implementation using Angular, TypeScript, and REST APIs, ensuring clean architecture and scalable UI design across multiple business applications built on ASP.NET Core.
- Designed reusable Angular components, directives, and pipes using Angular Material UI and SCSS, improving development efficiency, maintainability, and UI consistency.
- Optimized application performance through code refactoring, improved state management, and REST API integration with ASP.NET Core backend services.
- Contributed to technical specifications and design documentation while working within an Agile/Scrum methodology, coordinating sprint delivery with cross-functional teams.
- Gained working exposure to Azure-hosted deployments and Git-based version control as part of release coordination.

Senior Software Developer — *Cankado India, Trivandrum, Kerala* 05/2018 – 12/2019

- Built interactive dashboards using React.js and REST APIs across multiple user roles, translating business requirements into scalable technical solutions.
- Maintained and enhanced legacy Backbone.js systems, applying integration and middleware practices to extend functionality.
- Led frontend feature development and coordinated releases with cross-functional teams using Git version control.
- Mentored junior developers, promoting best coding practices, code quality standards, and Agile delivery discipline.
- Collaborated with business analysts and product teams to define technical specifications and translate requirements into scalable solutions.

Associate Software Engineer — *Inmeik Technologies, Kochi, Kerala* 08/2016 – 04/2018

- Developed a web application using Angular, JavaScript, HTML5, and CSS3, integrating REST APIs for dynamic data handling.
- Implemented responsive page layouts using CSS3, Flexbox, and Angular Material UI, ensuring design consistency across the application.
- Enhanced code through refactoring and optimization, reducing load times and improving performance.

EDUCATION

Bachelor of Technology

Rajiv Gandhi Institute of Technology, Kottayam, Kerala | 07/2016
